# Trips

An overview of the trips taken by each year group in a year

# Introduction

School trips provide students with practical, motivating and constructive experiences. Helping to develop their self-esteem and confidence, trips offer students the chance to experience cultures other than their own, develop new friendships with their peers and respect difference as well as broaden their horizons and knowledge. It's often easier for students to recall experience rather than theory learned in the classroom.

Alongside this detailed document, parents will receive communication from School regarding trips in advance; such as all relevant information including confirmation of the cost, how to pay and what happens if trips are cancelled. Payment terms are that a deposit is paid followed by instalments ahead of a confirmed deadline; parents use WisePay to make these payments.

While every effort is made to ensure every student can take part, some trips do have waiting lists and therefore applications must be made as soon as possible in order to avoid disappointment.
