The thing that I have enjoyed most about my time at Woodbridge is the people I have met; I have made such amazing friends here and the support from all of the teachers has always been incredible, there is an incredibly strong sense of community.

I have had to overcome balancing my schoolwork with sport as it takes up a lot of time, but my teachers have helped me to work out a way that works for me, this has helped me massively.

To people who are think of joining I would say that I can't recommend Woodbridge School highly enough, the teachers and students are kind and enthusiastic and it has such a supportive atmosphere to it. I have always felt so comfortable at Woodbridge, and I can't wait to go into Sixth Form.

## WHAT WOULD YOU SAY TO ANYONE THINKING ABOUT STUDYING AT WOODBRIDGE SCHOOL?

I've found all of the teachers to be generous and kind, in my younger years here I had some excellent learning support, it has been so helpful – particularly with English punctuation and structuring. I've no doubt that that support has been the main reason for my success. My friends have also supported me, they're all really hard workers too so that helped so much.

I love the community here too. I wouldn't want to risk going to a new school and having to make new friends and connections.
