

Woodbridge School Mission Statement and Aims

Everyone happy, everyone confident, everyone successful

We are a community in which the quality of relationships is given the highest priority. Our pupils, parents and staff work together for the benefit of each other and the wider community.

We help our pupils develop into happy, confident, caring and resilient individuals.

We provide high quality, innovative 'Learning@Woodbridge' which enables all pupils to enjoy their studies and become independent, confident learners able to exceed their academic potential.

Every Woodbridgian is known and valued. We provide individual, personal guidance and support to help our pupils thrive, negotiate risk and make good life choices.

We provide a wide range of extra-curricular activities so pupils find and develop their talents. We want pupils to love school, be in their element and know their self-worth.

We aim for all pupils to develop the essential skills, attributes and mind-set that will enable them to pursue their aspirations and ambitions beyond Woodbridge School.
